

The Church of St Mary the Virgin at Fryerning has a new vestry, toilet and kitchen. We have a new carpet, and lights, and have launched ourselves into the 21st century, with very little reference to the 20th. The congregation has been fundraising for many years, and with some kind gifts we were able to commission the work which started in February this year.

We are now able to offer a warm, well lit church for all occasions, and we should love to see you at any of our seasonal services. This has been rather a trying year, and our weddings and funerals have been kindly hosted by our sister parish of Ingatestone.

But now we are looking forward to making good use of our 900 year old building, with a 21st century makeover.

Judy Parmenter,
Churchwarden.
